*****PLEASE READ CAREFULLY***:**

Central MN Sexual Assault Center recommends that all individuals who are interested in working as a SANE understand the nature and impact of the crime of sexual assault. With regards to this, honest, individual introspection is recommended during training and orientation to assess readiness to work with sexual assault victims who are in crisis. Working with individuals in crisis can be difficult and can bring up an individual's own need for healing. If at any point, you decide the work is too intense or painful and need to take a break to do your own personal healing work, that would not disqualify you from employment in the future.

CMSAC staff must be in a healthy place in their own lives in order to put the needs of the sexual assault victim first. If you are concerned about your possible reaction to working with trauma, please consult with the CMSAC SANE Program Manager to assess any further steps that may need to be taken.

SANE's are required to attend monthly SANE case consultation meetings. The meetings will be held every third Monday of the month from 6:00 p.m.-7:00 pm on even months and 6:00 p.m.-7:30 p.m. on odd months for trainings. These meetings will be held at the St. Cloud Emergency Trauma Center in the Image Meeting Room.

Will you be able to attend these? ____yes ____no
